

After School Enrichment Course Guide

Scarsdale Congregational Church Nursery School

Play More. Learn More.

After-school enrichment programs provide children with new educational experiences in a small group setting. SCCNS offers three different enrichment courses:

Sprouting STEMs, which explores science and teaches basic computer skills

Musical Monets, which exposes the children to both past and present artists and musical geniuses

Cooking Cuties, which provides an introduction to the kitchen through various cooking techniques and cuisines

The fall and spring semesters teach different curriculums, which means your child can attend for the entire year and won't get bored! Each week they will continue to learn about new topics, complete different projects, and read fresh stories.

Read on to learn more about each class!

We also offer early enrollment and multiple class discounts!! See the "How to Enroll" page for details

As a courtesy, children are permitted to stay to eat lunch in an available room after their regular class. Children must be accompanied by a parent or caregiver for the entire time between dismissal and the start of their enrichment class, and we ask that all lunches be nut-free.

Sprouting STEMs

Tuesdays • 12:15pm - 2pm

Open to children in 3s or 4s classes

Our Sprouting STEMs class is a two-part computers & science program.

The computer portion will teach your child technical basics, such as keyboard and mouse use, and offer the opportunity for successful learning as they explore a variety of educational software.

The science portion is designed to introduce children to all aspects of science using processing skills, such as observation and prediction. Each session will enjoy bite-sized, hands-on science through experiments and fun learning activities.

2018 / 2019 School Year:

Fall Session: October 2nd through December 4th

Winter Session: January 15th through March 26th
(No class on Feb 19th)

Tuition for 10 sessions: \$300

Musical Monets

Thursdays • 12:15pm - 2pm

Open to children in 3s or 4s classes

Musical Monets is a program designed to give students a chance to explore art & music in greater depth.

The art portion of the class looks at examples of artists' works or the art of different cultures, and then teaches the children to use these as an inspiration for their own artwork.

Our musical exploration includes learning about rhythm, various instruments, the music of different cultures, and seasonal music.

Each week also includes a story that relates to the themes the class has been learning about.

2018 / 2019 School Year:

Fall Session: October 4th through December 20th
(No class on Nov 1st & Nov 22nd)

Winter Session: January 17th through March 28th
(No class on Feb 21st)

Tuition for 10 sessions: \$300

Cooking Cuties

Wednesdays • 12:15pm - 2pm

Open to children in 3s or 4s classes

The Cooking Cuties program provides your little cutie with a hands-on experience that incorporates food preparation with developmentally appropriate learning objectives and food tasting.

The class also exposes the children to new literature through the use of thematic books geared toward the focus of each cooking class.

2018 / 2019 School Year:

Spring Session: April 10th through June 5th
(No class on Apr 17th)

**A second session may be added if there is enough interest

Tuition for 8 sessions: \$240

How to Enroll

There are two ways to enroll your child in our programs: Your tuition bill will have an option to add on one or more of these programs for the following semester; you can include payment for the selected classes with tuition.

You can also at any time print this full page and return it with payment for the class(es). Please indicate "Enrichment Class Enrollment" on the outside of the envelope, and submit your selection, along with payment, to your orange class mailbox.

******* DISCOUNTED RATES *******

\$25 off if you enroll by the early enrollment deadlines (which correspond with tuition deadlines)

Early enrollment discounts given if payment is made by May 10th for Fall classes, or by November 10th for Winter/Spring classes

This is a one-time discount per semester, regardless of # of classes the child enrolls in

\$25 off if you enroll in more than one class in the same semester (Fall & Winter sessions only)

This is a one-time discount per semester

These discounts can be used together or independently, max discount is \$50

For questions or more information about any of these programs, please contact Melissa DiCostanzo, SCCN Director at 914-723-2440
